

Performance@Work

To thrive in today's business climate, your organization needs the most from your people, every day. More than just automating review and goal processes, Saba Performance@Work increases engagement while giving your people the tools they need to understand your business plan and their role in its success.

Align, Appraise, and Accelerate Performance

To elevate employee performance and engagement every day, Performance@Work goes beyond traditional performance management to help your team find experts, share new ideas, collaborate on projects, and celebrate success with innovative social and collaboration tools.

Saba's comprehensive goal management capabilities make it a snap to assign goals and align them to corporate objectives. Our flexible performance reviews are easily configured to fit your review cycle and allow for multiple reviewers, calibration, and even social recognition, which means you'll have no trouble accurately measuring performance, identifying areas for improvement and creating development plans. Goals can be managed and tracked throughout the review cycle, which eliminates surprises and removes subjectivity. This makes the annual performance review process easier and less of a chore for everyone.
